

UDAY HESE

Full-Stack & AI Developer

☎ +91-86240-12250 ✉ udayhese0101@gmail.com 🐙 GitHub </> LeetCode 🔗 LinkedIn 🌐 Portfolio

Summary

Full-Stack and AI Developer with strong knowledge of Artificial Intelligence and Deep Learning. Experienced in building scalable CRM platforms, real-time APIs, and intelligent systems using FastAPI, Flask, Supabase, and Redis. Actively seeking opportunities to grow, learn advanced technologies, and contribute to impactful engineering teams.

Skills

Programming: Python, Java

Web & Frameworks: FastAPI, Flask, Django, Next.js, HTML, CSS, JavaScript, Bootstrap

AI & Data: LangChain, Deep Learning, Pandas, NumPy, Scikit-learn, YOLOv10, OpenCV

Cloud & DevOps: AWS (EC2, S3), Docker, Kubernetes, Linux, Chef, Locust

Databases & Tools: Supabase (Postgres), MySQL, MongoDB, Redis, Git, GitHub, Power BI, Tableau

Experience

Raam Group

Jun 2025 – Nov 2025

Data Analyst → Software Developer Intern

Hyderabad (On-site) 🏠 Ather 🏠 Toyota

- Built and deployed Raam Ather CRM using Flask and Supabase with automated lead assignment and email notifications.
- Developed EPIC Toyota CRM 2.0 using Next.js and FastAPI with role-based dashboards and real-time updates.
- Performed load and stress testing with Locust to validate scalability and resolve performance bottlenecks.

Projects

AI-Embedded Email Mailer

Jan 2026

React, TypeScript, FastAPI, OpenRouter, Google OAuth 2.0

- Built an AI-powered email studio with real-time HTML generation using OpenRouter LLM and a chat-based conversational interface.
- Integrated secure Gmail OAuth 2.0 flow with encrypted session management and image hosting via Supabase Storage.

Dance Movement Analyzer (Cloud-Deployed)

Dec 2025

FastAPI, MediaPipe, Docker, AWS EC2 (Linux)

- Deployed a FastAPI backend on AWS EC2 (Linux) for MediaPipe-based dance pose analysis.
- Built Dockerized video-processing APIs to generate annotated dance videos via REST.

Weather Chatbot

Dec 2025

FastAPI, LangChain ReAct, OpenWeather API, OpenRouter

- Built a LangChain ReAct-powered chatbot to retrieve real-time weather data with intelligent tool selection.
- Implemented a FastAPI backend with retry logic, robust error handling, and natural language responses.

Certifications

- IBM Full Stack Software Developer — IBM
- Basic Certificate Course in Artificial Intelligence — C-DAC Pune (Apr 2024)

Achievements

- Rank 1 — Smart India Hackathon (Internal College Round) for Virtual Traffic Police Project.

Education

Vishwakarma Institute of Information Technology

2022 – 2026

B.Tech in Computer Science (AI)

CGPA: 8.39 / 10
